Product Info / Order Sheet

1st Annual Build

Wheel Hoe

Modular wheel hoe that allows for quick swapping out various different components, such as hoe, cultivators, small plows, etc. Or reconfiguration into different set ups such as double wheel/ single wheel, multiple implements, and more. Adjustable height handle.

1st Year Build based on prototype comes with one stirrup hoe attachment.

Design Advantages:

- Light weight
- Easy to reconfigure
- Modular
- Solid durable design

Built to last with care, by people for people who recognize the value of long term dependable design and quality manufacturing.
